

MARCH 2026 NEWSLETTER

HAPPY MARCH!

March is a month of fresh starts, brighter days, and growing minds! As we transition from winter into spring, our classrooms are buzzing with curiosity, creativity, and excitement for the season ahead.

NATIONAL READING MONTH

This month, children will explore themes of growth and change through hands-on activities, sensory play, and engaging lessons designed to spark imagination and build new skills. We'll be watching for early signs of spring, learning about weather changes, and celebrating special moments like St. Patrick's Day and the first day of spring, as well as Rodeo Festivities.

You'll also find important reminders, upcoming events, and helpful resources to keep you informed and connected. Thank you for your continued partnership and support – we're looking forward to a wonderful month filled with discovery, laughter, and learning!
